"Loving and Hating Mathematics discusses subjects that are not normally addressed at all--the human, psychological, social, and cultural dimensions of math. The book contains a wealth of stories and anecdotes that together humanize mathematics, support a different way of thinking about its nature, and break down the barriers between math and the wider world. This is an interesting and ...

Die Lewis-Formeln (Strukturformeln) sind uns schon oft begegnet. Wir wollen uns hier einmal mit dem Aufstellen solchen Lewis-Formeln näher beschäftigen. Die Lewis-Formeln beschreiben Bindungsverhältnisse in Molekülen oder Ionen. Das Bindungskonzept von LEWIS (1916 entwickelt) geht davon aus, dass die Bindung zwischen den Atomen eines Moleküls durch die gemeinsame Benutzung von Elektronen ...

particular situation are simply that loving and helping are good, while hating and harming are not. But even these intuitions must . 59 THE MATHEMATICAL MIND OF C. S. LEWIS be qualified to some extent since helping one party might imply harming another. The logical result, according to Lewis, based upon these facts and intuitions, is that complete pacifism is not practical. Further-more, he ...

Miss Smith grew up loving Math, but it was not until high school that she discovered the objective beauty of the subject. In seeing the Fibonacci sequence and the Fundamental Theorem of Calculus, Miss Smith discovered the perfect way in which even our system of numbers reflects truth, order, and creation, thus leading to the discovery of an objectively true beauty. She believes that not only ...
